

2002 Annual Report, Karling Awards Committee

Karling Awards were made to the following students. The list gives the student's name, university, title of the project, and award amount.

Name	University	Award
Alvarez, Aida	New York Botanical Garden	
	Phylogeny of Prescottinae and systematics of Gomphichis (Orchidaceae)	\$500
Baumert, Anthony	University of Pittsburgh	
	Application of resource competition theory to ecosystem succession	\$500
Bell, John	University of Wisconsin, Milwaukee	
	The effect of interspecific competition for pollinator service on the mating patterns and pollen dispersal in <i>Mimulus ringens</i>	\$500
Cortes-Burns, Helen	University of Texas	
	Phylogenetic and biogeographic study of Bell-flowers (<i>Walhlenbergia</i>) in the southern hemisphere of Oceanic Islands	\$500
Cortes-Palomec, Aurea	Ohio University	
	Reproductive systems and population genetics of a Mexican <i>Viola</i> species	\$500
Cronin, James	University of Pittsburgh	
	Herbivory and the top-down regulation of terrestrial plant communities: A test of two prominent theoretical lineages	\$500
Dunn, Michael	Ohio University	
	The Mid-Carboniferous Floral Break: a crucial and enigmatic episode in the evolution of the terrestrial ecosystem	\$500
Forest, Felix	Royal Botanic Gardens, Kew	
	A molecular systematic study of the South African endemic genus <i>Muraltia</i> (Polygalaceae)	
Hernandez-Castillo, Genaro	University of Alberta	
	Taxonomic reevaluation and systematics of primitive conifers from Euramerica	\$500
Karst, Lisa	Portland State University	
	Phylogeny of <i>Syrinchium</i> (Iridaceae), genetic and morphological	\$500
Moody, Michael	University of Connecticut	
	Phylogenetics, hybridity and aquatic origins in the angiosperm family Haloragaceae	\$500
Moore, Michael	University of Texas	
	The roles of edaphic shifts and long distance dispersal in the evolution of the American desert genus <i>Tiquilia</i> (Boraginaceae)	\$500
Morris, Ashley	University of Florida	
	Exploring the biogeographic history of eastern North American trees: a comparative phylogeographic approach	\$500
Roncal, Julissa	Florida International University	
	Evolution of the <i>Geonoma macrostachys</i> (Palmae) complex	\$750
Rydholm, Carla	Duke University	
	Lichenicolours fungi systematics and the transition from mutualism to parasitism in Ascomycetes	\$500

Specht, Chelsea	New York Botanical Garden	
	Systematics and evolution of the tropical plant family Costaceae	\$500
Steets, Janette	University of Pittsburgh	
	Ecological correlates of Pollen Limitation	\$500
Thompson, James	University of Florida	
	Phylogeny and the evolution of breeding systems in the moss <i>Pohlia Cruda</i>	\$500
Thompson, Stacey	University of British Columbia	
	Transmission of apomixis in a <i>Townsendia</i> hybrid zone	\$500
Wu, Carrie	University of California	
	Ecophysiological variation among natural hybrids in an <i>Ipomopsis</i> (<i>Polemoniaceae</i>) hybrid zone	\$500

Respectfully submitted

Gene Mapes, *Chairperson*
