

Cheadle Award Committee Report

Prepared by Larry Hufford

24 July 2006

The Cheadle Award Committee (Frank Ewers, Bruce Kirchoff, and Larry Hufford [chair]) evaluated proposals from ten applicants. We selected four students to each receive \$500 awards based on each student's plans to attend Botany 2006, the relevance of the talk/poster to structural botany, and the intellectual quality of the talk/poster.

The following students were selected to receive awards:

Tania Hernandez-Hernandez, UNAM
Purbasha Sarkar, Miami University
Richard Tate, Humboldt State University
Ramona Walls, SUNY Stony Brook
