The Cincinnati Zoo & Botanical Garden Center for Conservation & Research of Endangered Wildlife (CREW) is hosting a free virtual symposium

The **Cincinnati Zoo & Botanical Garden Center for Conservation & Research of Endangered Wildlife (CREW)** is hosting a **free virtual symposium and workshop: "Conserving Exceptional Plants - Cryobiotechnologies, Status, and Scale" April 8-9, 2025**. Participants will hear from experts and participate in discussions on the current state and future of exceptional plant conservation around the world.

Topics covered will include:

- Updates on tissue and seed cryopreservation research
- Updates on the global state of exceptional plant research>What it will take to scale up research and cryobanking of exceptional species
- How to set priorities and fill gaps in the field

Participants are encouraged to register to attend and/or submit a poster abstract here: <https://cincinnati.org/exceptional-plant-conservation-network/#ceps>.

Registration ends April 7, 2025.

Abstract submission ends March 15, 2025.

For any questions, please contact epcn@cincinnati.org.
